## KEY FEATURES

- PC Macro Multi-Asset (MMA) Dynamic Growth fund is a diversified, actively managed multi-asset portfolio, with a focus on providing returns above its globally focussed multi-asset passive benchmark.
- The Fund aims to achieve its objective by taking an active approach to asset allocation which is done systematically using outputs from the AlphaPredictor® model.
- The AlphaPredictor® model uses monthly inputs for macro-economic and risk factors to identify the sensitivity of each asset, within its universe, to changing macro-conditions and their exposure to risk factors. It then, in turn, generates a forward-looking estimate of each asset class's return, volatility and covariance allowing it to determine an optimal asset allocation for current global market conditions given its pre-determined investing constraints.
- The fund implements the forward-looking allocation through the use of Exchange Traded Funds and Exchange Traded Futures to minimise active fund manager risk, reduce implementation costs and deliver returns as close to the AlphaPredictor® model as possible.
- The equity content of the PC MMA Dynamic Growth fund will fluctuate between 65%-90%.

## \*IMPORTANT DISCLOSURES

\*PC Macro Multi-Asset Dynamic Growth Fund refers to the performance of Share Class A9 USD (MT7000019972), unaudited figures, net of fees. Performance prior to the share class launch date (shown in 'Fund Information') is the 'AlphaPredictor®' model's back-tested performance. Share Class A9 USD is chosen as this is the base currency of the fund. Investor return in different currency share classes may vary substantially due to changes in currency exchange rate movements. Past Performance of any kind, actual or simulated, is not a reliable indicator of future performance and should not be the sole factor of consideration when selecting a product or strategy. Please note there may be additional third-party fees applicable based on the way you access the strategy (financial adviser fees for example) which are not factored into the return data. Asset allocation information is shown for illustrative purposes only and may not be correct at the time of reading the document. For more information, please contact your ARIA Representative or use the contact details provided (left).

The value of investments can fall and you may get back less than you invested. Past performance is not a guide to future performance. Any specific investments mentioned are for illustrative purposes only and are not intended as investment advice.

\*IMPORTANT DISCLOSURES

All performance shown in Additional Share Class Information relates to live Year-To-Date (YTD) performance of the respective Share Class. Share Classes showing no performance currently have no investors. Investor return in different currency share classes may vary substantially due to changes in currency exchange rate movements. Past Performance of any kind, actual or simulated, is not a reliable indicator of future performance and should not be the sole factor of consideration when selecting a product or strategy. Please note there may be additional third-party fees applicable based on the way you access the strategy (financial adviser fees for example) which are not factored into the return data. Asset allocation information is shown for illustrative purposes only and may not be correct at the time of reading the document. For more information, please contact your ARIA Representative or use the contact details provided on page 1 of this document.

There is no guarantee that the PC Macro Multi-Asset Dynamic Growth Fund (the "Fund") will perform in line with the AlphaPredictor® Model Performance. There may be a significant tracking error from the implementation of the model in a UCITS compliant manor.

## ALPHAPREDICTOR® MODEL INFORMATION

### Fund Universe Constraints

The AlphaPredictor® model looks to outperform its passive benchmark via its active allocation. The Fund has built in exposure constraints in order to remain within its risk profile. The Constraints of the PC MMA Dynamic Growth Fund are:

	Low	High
Equity Exposure	65.00%	90.00%
Fixed Income Exposure	5.00%	30.00%
Alternatives Basket Exposure	5.00%	20.00%
Cash or Cash Equivalents	0.00%	20.00%

### Benchmark Information

The Benchmark of the fund is made up of 80% Risk/20% Defensive Asset split aiming to replicate the passive investment alternative to the PC MMA Dynamic Growth Fund. The Benchmark includes all 8 main asset classes of the fund.

MSCI ACWI INDEX	70.00%	MSCI's flagship global equity index, is designed to represent performance of the full opportunity set of large- and mid-cap stocks across 23 developed and 27 emerging markets. As of November 2020, it covers more than 3,000 constituents across 11 sectors and approximately 85% of the free float-adjusted market capitalization in each market.
Bloomberg Barclays Global Aggregate Bond Index	20.00%	The Bloomberg Barclays Global Aggregate Index is a flagship measure of global investment grade debt from 24 local currency markets. Includes treasury, government related, corporate and securitized fixed rate bonds from both developed and emerging market issuers.
Alternatives Basket	10.00%	The remaining 6 main asset classes within the universe are included in an equal weighted 'alternatives basket'. Those asset classes are Global Clean Energy, Global Water, Global Infrastructure, Global Industrial Metals, Gold and Real Estate.

All financial investments involve an element of risk. Therefore, the value of your investment and the income from it will vary and your initial investment amount cannot be guaranteed. The value of an investment will depend on several factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

## IMPORTANT DISCLOSURES: RISK WARNING

Past performance does not predict future returns. Investments in equities and fixed income are subject to market risk. There is no guarantee that the PC Macro Multi-Asset Dynamic Growth Fund (the "Fund") will perform in line with the AlphaPredictor® Model Performance. Changes in exchange rates may have an adverse effect on the value price or income of the product. The Fund may use higher leverage and financial derivative instruments as part of the investment process. The distribution of this report does not constitute an offer or solicitation and this notice is not contractually binding and shall not be construed as an offer of sale in the Fund or any other fund managed or advised by ARIA Capital Management. Any investment in the Fund should be based on the full details contained in the Fund's Supplement Prospectus and PRIIP KID which may be downloaded from the ARIA Capital Management website. Information given in this document has been obtained from, or based upon, sources believed by us to be reliable and accurate although ARIA Capital Management does not accept liability for the accuracy of the contents.
