INVESTMENT OBJECTIVE, POLICY AND RESTRICTIONS

Investment Objective

The investment objective of the Sub-Fund is to deliver medium to long term capital appreciation.

There is no guarantee that the investment objective of the Sub-Fund will be achieved. Investment results may vary substantially over time.

Investment Policy

The Sub-Fund will seek to achieve its investment objective through an active approach to asset selection and allocation. This approach will be based on an internal proprietary asset allocation model (the “**Proprietary Model**”). The Proprietary Model uses monthly inputs relating to macro-economic and risk factors to identify the sensitivity of each asset, within its universe, to changing macro-conditions and their exposure to risk factors. It then, in turn, generates a forward-looking estimate of each asset classes’ return, volatility and covariance allowing it to determine an optimal asset allocation for current global market conditions.

On the basis of the above, the Proprietary Model will suggest weighting/s to different assets classes. Exposure constraints are in-built within the Proprietary Model such that asset allocation will always comply to the following broad asset class constraints: (a) equity exposure: 65%-95%; (b) fixed income exposure: 5%-30%; (c) other exposures: 5%-20%. Should market movements, subscriptions and/or redemptions disrupt the aforesaid allocations, the Sub-Fund’s portfolio will be rectified within a period of one calendar month, generally at the next rebalance date.

The Investment Committee will then select specific instruments falling within the asset classes selected by the Proprietary model, which the Investment Committee considers will maximise performance of the Sub-Fund. The Investment Manager will have responsibility to execute day to day trades within the parameters set by the Investment Committee. As at the date of this Offering Supplement, it is expected that the aforesaid instruments will principally comprise (but will not be limited to) exchange traded funds, other types of collective investment schemes, exchange traded commodities and exchange traded futures. When investing in exchange traded funds, the Sub-Fund will seek, where possible, to invest in share classes denominated in GBP, EUR and USD or in share classes denominated in other currencies to the extent that currency exposure can be adequately hedged.

The Sub-Fund, under normal market conditions, will look to rebalance in line with the Proprietary Model’s allocation on a monthly basis.

In addition to the above, the Sub-Fund may invest, to a lesser extent in the following financial derivative instruments: contracts for difference, options, forwards, spot positions,

swaps, certificate of deposits and/or futures which may be entered into for both hedging and investment purposes.

Investments in collective investments scheme will generally be EU regulated collective investment schemes. In the event that the Sub-Fund invests in Non-EU regulated collective schemes this shall be to a maximum of 10% of the Sub-Funds NAV provided such Non-EU regulated collective scheme satisfies the UCITS eligibility criteria. In the event that any investments are made in collective investment schemes with whom the Sub-Fund's Directors, Investment Committee Members or Investment Manager are associated with any subscription or redemption fee with regards to investments in such schemes shall be waived.

While the Investment Manager will look to ensure that the Sub-Fund invests via the investment instruments detailed above it reserves the right to alter the investment instruments utilised, in order to achieve the Sub-Fund objectives in the most effective and cost-efficient manner.

Any changes to the investment policy of the Sub-Fund shall require prior notification to the MFSA as well as communication to existing investors in the Sub-Fund.

Investment and Borrowing Restrictions

In pursuing its Investment Objective and Investment Policy, the Sub-Fund will be subject to the Investment, Borrowing and Leverage Restrictions as set out in the section "Investment Objectives, Policies and Restrictions" in the Prospectus.

Method used to calculate the global exposure

The Sub-Fund uses the absolute Value-at-Risk (VaR) approach to measure its global exposure.

Leverage

The Sub-Fund may be leveraged through derivatives. The level of leverage under normal market circumstances is expected to amount to no more than 110% of the net asset value of the Sub-Fund. Such level might be exceeded or might be subject to change in the future.

The strategies which are employed by the Sub-Fund are speculative and entail a number of risks. No assurance can be given that the Investment Objective of the Sub-Fund will be realized (See the section entitled "Risk Factors" of the Prospectus and the section "Specific Risk Factors" below).

SPECIFIC RISK FACTORS

THERE CAN BE NO GUARANTEE THAT THE INVESTMENT OBJECTIVE OF THE SUB-FUND SET OUT IN THIS OFFERING SUPPLEMENT WILL BE ACHIEVED. IT IS RECOMMENDED THAT PROSPECTIVE INVESTORS CONSULT THEIR OWN FINANCIAL ADVISORS BEFORE DECIDING TO INVEST IN THE SUB-FUND. THE SPECIFIC RISK FACTORS APPLICABLE TO THE SUB-FUND (SET OUT BELOW) SHOULD BE READ IN CONJUNCTION WITH THE RISK FACTORS SET OUT IN THE PROSPECTUS.

Credit Risk

The Sub-Fund may invest in debt securities (including exchange traded commodities) which may expose the Sub-Fund to the risk that an issuer may default on the payment of principal and/or interest. In the event that any issuer of bonds or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities which may in turn affect the Net Asset Value per Investor Share.

Equity Investment Risk

Equity investments, including investments in exchange traded funds, are subject to greater fluctuations in market value than other asset classes as a result of factors such as a company's business performance, investor perceptions, stock market trends and general economic conditions. Prospective investors should note that this could have an impact on the Sub-Fund's Net Asset Value.

Exchange Rate Fluctuations

Currency fluctuations between the currency of denomination of a class of Investor Shares of a Sub-Fund and the investor's currency of reference and the currency of the underlying investments of a Sub-Fund, may adversely affect the value of investments and the income derived therefrom.

Proprietary Model

The Sub-Fund will seek to achieve its investment objective through an active approach to asset selection and allocation, which will be based on the Proprietary Model. The success of the Sub-Fund therefore depends, to a large extent, on the asset class allocation identified by the Proprietary Model. In the event that Proprietary Model does not work as expected, this could result in losses on the Sub-Fund's investments.

Implementation Risk

There is a risk that the investable universe selected by the Investment Committee will not directly map the allocation selected by Proprietary Model, potentially causing the Sub-Fund to underperform the Proprietary's Model performance. There will also be a number of fees/charges involved with investments in instruments, which are not factored into the Proprietary Model when deciding asset allocations, and, therefore, the Sub-Fund may not reach the expected performance anticipated by the Proprietary Model.

THE FOREGOING LIST OF RISK FACTORS IS NOT AND DOES NOT PURPORT TO BE A COMPLETE EXPLANATION OF THE RISKS INVOLVED IN AN INVESTMENT IN THE SUB-FUND. PROSPECTIVE INVESTORS SHOULD READ THE ENTIRE PROSPECTUS AND OFFERING SUPPLEMENT AND CONSULT THEIR OWN FINANCIAL ADVISORS BEFORE DECIDING TO INVEST IN THE SUB-FUND.

The Class E9 EURO, Class E9 GBP and Class E9 USD Investor Shares may be purchased at the Initial Offering Price during the Initial Offering Period. Class A9, B9, C9, D9 Investor Shares and, following the lapse of the Initial Offering Period, Class E9 Investor Shares, may be purchased on each Subscription Day at the

Net Asset Value per Share. Applications forms must be received at the offices of the Administrator before the Subscription Notice Deadline, or such other time as the Directors may determine. Applications are to be accompanied by the remittance (in cleared funds) of the subscription amount to the bank account designated for this purpose in the Application form. Subject to the satisfaction of the requirements set out above, the Administrator will generally issue written confirmation of ownership to a Shareholder within five (5) Business Days after the applicable Subscription Day.

Redemption instructions may be made on a redemption form (or in any other written form acceptable to the Company) which must be delivered to the Company (at the office of the Administrator) before the Redemption Notice Deadline. Redemption requests received after the Redemption Notice Deadline will be processed on the next Redemption day, provided that the Directors may accept, at their sole discretion, a shorter notice.

Redemption requests are, once made, irrevocable. Redemption requests will generally be settled within ten (10) Business Days from the relevant Redemption Day. In the event

that redemption requests may not (due to exceptional circumstances) be settled within such period as aforesaid, the Company will settle such requests as soon as possible thereafter.

A specimen redemption form will be provided upon request by the Administrator.

Prospective investors are referred to the Prospectus for further details on the redemption procedures.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing request for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances the Company or its authorised agent may scale down *pro rata* the number of Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. Requests for redemption carried forward from an earlier Redemption Day shall have priority over later requests.

Exchange of Investor Shares

Shareholders may exchange Investor Shares (the '**Original Shares**') into Investor Shares of another class in this Sub-Fund or into Investor Shares in another sub-fund (the '**New Shares**'), provided that any requirements applicable to Shareholders of the New Shares are met by the switching Shareholder.

In the case of an exchange of Investor Shares from one sub-fund to another, Shareholders are entitled to exchange Shares on a common dealing day for both Sub-Funds, or as otherwise agreed by with the Investor, provided that the resultant value of the holding of Shares of such Shareholder in each sub fund does not violate any minimum holding requirement of each sub-fund.

In order for the exchange of Shares to be dealt on the next dealing day following the day on which an exchange request is made, notice thereof must be given to the Company (at the offices of the Administrator) before the Subscription Notice Deadline/Redemption

Notice Deadline on which the exchange is to occur or such other time as the Company may, in its sole discretion, determine.

Authorised Distributor Fees

General

Upon the subscription for Class B9 EURO, Class B9 GBP, Class B9 USD, Class E9 EURO, Class E9 GBP and Class E9 USD shares (the “**ADF Share Classes**”), the Promoter shall receive an authorised distribution fee of a maximum of 7.0% of the subscription amount from the assets of the Sub-Fund (the “**Authorised Distribution Fee**”), for onward distribution to the relevant Authorised Distributor introducing the Investor to the Sub-Fund. The % amount of the Authorised Distribution Fee is to be agreed between the Authorised Distributor and the Investor but will not exceed 7% of the

subscription amount. The Authorised Distribution Fee is generally paid out of the assets of the Sub-Fund within 30 calendar days of subscription for the ADF Share Class/es.

The Authorised Distribution Fee is to be amortised over a maximum 84-month period (with 1% of the Authorised Distribution Fee being amortised per 12 month period) (the “**Redemption Penalty Period**”). Should the investor redeem prior to the lapse of the Redemption Penalty Period, the investor will incur a penalty equivalent to the unamortised balance of the Authorised Distribution Fee (the “**Redemption Penalty**”).

By way of example, a 7% Authorised Distribution Fee will mean an 84-month Redemption Penalty Period, and 5% would mean a 60 month Redemption Penalty Period. The Authorised Distribution Fee will always be calculated on the Investor’s original subscription value, and the then current value of the Investor’s units held thereafter will not have any bearing on this calculation. The Redemption Penalty will decline to 0% after having been fully amortised over the Redemption Penalty Period.

For Share Classes A9 EURO, A9 GBP, A9 USD, C9 EURO, Class C9 GBP, C9 USD, D9 EURO, D9 GBP and D9 USD, the Sub-Fund may impose a subscription fee on the issue of Shares of up to 5% of the Net Asset Value per Share subscribed by each Investor, to be paid out of the subscription monies at subscription and payable to the Promoter. The Subscription fee will only be charged as aforesaid if such subscription is done through an Authorised Distributor.

The Promoter may pay all or part of the fees and charges it receives as a commission, retrocession, rebate or discount to financial intermediaries, Authorised Distributors or other investors. The Subscription Fee may be reduced or waived at the discretion of the Directors or Investment Manager.

Other Expenses

The fees and expenses incurred in connection with the establishment of the Sub-Fund, the application for licensing of the Sub-Fund, the preparation and publication of the

Offering Supplement and all legal costs and out of pocket expenses in relation thereto shall be paid out of the assets of Sub-Fund.

The Sub-Fund shall also bear other expenses as specified in the section headed '*Fees and Expenses*' in the Prospectus. These include *inter alia* its pro-rata share of the Directors' and Company secretary Fees and other operating expenses relating to the Company generally as set out in the Prospectus.

The Promoter may also be paid a promoter's fee, which at its absolute discretion can be paid to certain promoters for their assistance in distributing the shares of the Sub Fund. The promoter's fee is paid in respect of parties appointed by the Investment Manager to provide a range of services, including but not limited to marketing, asset raising and distribution support, including the disbursement of distribution fees. The promoter's fee shall be paid from the assets of the Sub-Fund and shall be amortised over the period of five (5) years. INFORMATION FOR INVESTORS IN IRELAND

1. IRISH TAXATION

The following summary is only intended as a brief and general guide to the main aspects of current Irish tax law and practice of the Revenue Commissioners in Ireland applicable to the holding and disposal of Shares in the Fund where the Shareholder is regarded as holding a material interest in an offshore fund and is resident or ordinarily resident in Ireland or carrying on a trade in Ireland through a branch or agency in Ireland. Shareholders should note this summary reflects the law and practice in force at the date of this document and may change in the future.

It is not intended to provide specific advice and no action should be taken or omitted to be taken in reliance upon it. It is addressed to Shareholders who are the absolute beneficial owners of Shares held as investments and not to special classes of Shareholder such as financial institutions. In addition, it does not address the tax consequences in Ireland for Shareholders whose acquisition of Shares in the Fund would be regarded as a shareholding in a Personal Portfolio Investment Undertaking (PPIU). Accordingly, its applicability will depend upon the particular circumstances of individual Shareholders. The summary is not exhaustive and does not generally consider tax reliefs or exemptions. Any prospective Shareholder who is in any doubt about his/her Irish tax position in relation to the Fund should consult his/her Irish professional adviser.

Investors should consult their professional advisers on the possible tax or other consequences of buying, holding, transferring, switching or selling any of their Shares under the laws of their countries of citizenship, residence and domicile.

Taxation of the Company in Ireland

The Directors of the Company intend to conduct the affairs of the Company so that it does not become resident in Ireland for taxation purposes. Accordingly, provided the Company does not exercise a trade within Ireland or carry on a trade in Ireland through a branch or agency, the Company will not be subject to Irish tax on its income and gains other than on certain Irish source income and gains.

Taxation of Shareholders in Ireland

Shareholders in the Fund who are resident or ordinarily resident in Ireland or carrying on a trade in Ireland through a branch or agency in Ireland for taxation purposes will be liable to Irish tax in respect of any income and gains from Shares in the Company in accordance with the provisions of Chapter 4 Part 27 of the Taxes Consolidation Act, 1997 ("TCA"). Accordingly, such Shareholders will be obliged to comply with the requirements set out therein.

Filing Obligations

Such Shareholders should note that acquiring Shares in the Company will bring them within the self-assessment system of tax and, in particular, Part 41A of the TCA. Accordingly, Shareholders who are individuals will be obliged to comply with tax filing and payment requirements (including making a self-assessment tax return) on or before 31 October in the year, following the year of assessment in which the income or gains arise, paying preliminary tax on or before 31 October in the year of assessment in which the income or gains arise and paying the balance of any tax due on or before 31 October in the year following the year of assessment in which the income or gains arise.

Shareholders should also note that they are obliged to provide details of their acquisition of Shares in the Company in the prescribed manner in their tax return for the year of assessment in which they acquire Shares and that the rates outlined below assume Shareholders will comply with those requirements.

Tax on Distributions

Non-corporate Shareholders will be liable to income tax under Case III of Schedule D on distributions received from the Company (other than a disposal) at a rate of 41%, including where such distributions are reinvested in new Shares.

Corporate Shareholders will be liable to corporation tax under Case III of Schedule D, currently at a rate of 25%, in respect of all distributions received from the Fund (other than on a disposal) except where the corporate Shareholder holds the securities as part of its trading activities, in which case, the rate of corporation tax applicable to the distributions will be that applicable to trading income, which is currently 12½%.

Non-Corporate Shareholders who are resident but not domiciled in Ireland may be able to claim the remittance basis of taxation in respect of distributions received from the Company, in which case the liability to tax may only arise as and when income from the Company (received annually or more frequently) is received or deemed to be received in Ireland.

Tax on Disposals

Non-corporate Shareholders will be subject to income tax under Case IV of Schedule D on the gain arising on disposing of their Shares in the Company, calculated in accordance with the capital gains tax rules, but no indexation relief will be available. The gain will be taxed at the rate of 41%.

Shareholders who are individuals should note that on their death, the individual will be deemed to have disposed of his/her Shares in the Fund and reacquired them at the then market value immediately before his/her death and, accordingly, will be subject to income tax on the gain arising as outlined above.

Corporate Shareholders who dispose of their Shares in the Fund will be liable to tax on the gain arising calculated in accordance with the capital gains tax rules, but no indexation relief will be available. The gain will be subject to corporation tax under Case IV of Schedule D at the rate of 25%, except where the corporate Shareholder holds the Shares

as part of its trading activities, in which case, the rate of corporation tax applicable to the gain will be that applicable to trading income, which is currently 12½%.

Deemed Disposals

Shareholders should note that under Irish tax law, they will be deemed to dispose and reacquire their Shares in the Company at market value on the eighth anniversary of holding those Shares. A deemed disposal will arise at the end of each eight-year period in respect of which the Shareholder holds Shares in the Fund. On a deemed disposal the Shareholder will be liable to pay income tax or corporation tax (as the case may be) on the deemed gain under Case IV of Schedule D as outlined above. Such tax should be creditable against tax payable on an actual disposal of those Shares.

No Relief for Losses

Shareholders' attention is drawn to the fact that any loss arising on a disposal of Shares in the Company, will be treated as a nil loss for tax purposes and any gain arising on a disposal of such Shares may not be relieved by other losses available to the Shareholder from other sources.

Switching / Conversion of Shares

Shareholders should note that switching between Share Classes within a Fund should not be regarded as a disposal of shares by such Shareholder for tax purposes in Ireland, where the exchange is effected by way of a bargain made at arm's length by the Fund of the whole or part of the Shares of the Shareholder in one Share Class for another Share Class.

There are special rules relating to situations where additional consideration is paid in respect of the conversion of shares, or if a shareholder receives consideration other than the replacement shares in a fund and special rules may also apply when a fund operates equalisation arrangements (these rules are outside the scope of this note).

Foreign Currency Gains

In addition, Shareholders should note that where he/she/it makes a currency gain on a disposal of Shares in the Company, the Shareholder may be liable to capital gains tax in respect of that gain in the year of assessment in which the Shares are disposed of, where the Shares are denominated in a currency other than Euro.

Certain Anti-Tax Avoidance Rules

Shareholders should note that Chapter 1 of Part 33 of the TCA could apply to them. These provisions are designed to prevent the avoidance of income tax by individuals through the transfer of assets or income to persons outside Ireland and if applicable, could render such Shareholders liable to income tax or corporation tax in respect of undistributed profits of the Company.

In addition, certain Shareholders who are individuals who hold 5% or more of the Shares in the Fund may be subject to tax in respect of certain gains accruing to the Fund under the provisions of Section 590 of the TCA.

Encashment Tax

Shareholders in the Company should note that any distributions made by a paying agent in Ireland on behalf of the Company or which are presented to, collected by, received by or otherwise realised by a bank or other person acting on behalf of the Shareholder in Ireland will be subject to encashment tax at the standard rate of income tax which is currently 20%. Encashment tax is normally creditable against the Shareholder's final income tax liability.

Stamp Duty

No stamp duty will be payable in Ireland by the Fund on the conveyance or transfer of stock or marketable securities of a Fund or other body corporate not registered in Ireland, provided that the conveyance or transfer does not relate to any immovable property situated in Ireland or any right over or interest in such property, or to any stocks or marketable securities of a Fund (other than a Fund which is an investment undertaking within the meaning of Section 739B of the Taxes Consolidation Act, 1997 or a qualifying Fund within the meaning of Section 110 of the Taxes Consolidation Act, 1997) which is registered in Ireland.

Capital Acquisitions Tax

Shareholders should note that a gift or inheritance comprising of Shares in the Company will be within the charge to Irish capital acquisitions tax if either: (i) the disponent or the beneficiary in relation to the gift or inheritance is resident or ordinarily resident in Ireland; or (ii) the shares are regarded as property situate in Ireland.

However, Shareholders should note that:

- a. a non-Irish domiciled individual will not be regarded as being resident or ordinarily resident in Ireland at the date of the gift or inheritance unless that individual: (i) has been resident in Ireland for the five consecutive tax years preceding that date; and (ii) is either resident or ordinarily resident at that date, and
- b. on the basis that the Fund is incorporated or otherwise formed outside of Ireland and qualifies as an investment undertaking within the meaning of Section 75 of the Capital Acquisitions Tax Consolidation Act 2003 being a bona fide scheme for the purpose, or having the effect, solely or mainly, of providing facilities for the participation by the public or other investors in profits or income arising from the acquisition, holding, management or disposal of securities or any other property, the disposal of Shares by way of a gift or inheritance will not be within the charge to Irish capital acquisitions tax provided that:

- I. the Shares are comprised in the gift or inheritance at the date of the gift or inheritance and at the valuation date;
- II. the beneficiary is neither domiciled nor ordinarily resident in Ireland at the date of the disposition; and
- III. the beneficiary is neither domiciled nor ordinarily resident in Ireland at the date of the disposition.
