There is no guarantee that the investment objective of the Sub-Fund will be achieved. Investment results may vary substantially over time.

Investment Policy

The Sub-Fund will seek to achieve its investment objective through investments in either, or a combination of, the following:

- a) Equity and equity related securities, indirectly through financial derivative instruments (exchange traded or over-the counter) including structured product investments and automatically callable products.
- b) Fixed and/or floating rate debt securities, whether investment grade or otherwise, issued by government and/or corporate entities.
- c) Exchange Traded Funds investing in equities, bonds or cash equivalents;;

In addition, the Sub-Fund may invest in listed UCITS eligible equity or equity-like securities (including, ordinary/common stock, preferred stock, American depositary receipts, global depositary receipts and/or warrants) issued by companies whose business involves and/or is related to a broad range of sectors.

Investments in exchange traded funds will be EU regulated exchange traded funds. While the Investment Manager will look to ensure that the Sub-Fund invests via the investment instruments detailed above it reserves the right to alter the investment instruments utilised, in order to achieve the Sub-Fund objectives in the most effective and cost-efficient manner.

Any changes to the investment policy of the Sub-Fund shall require prior notification to the MFSA as well as communication to existing investors in the Sub-Fund.

Investment and Borrowing Restrictions

In pursuing its Investment Objective and Investment Policy, the Sub-Fund will be subject to the Investment, Borrowing and Leverage Restrictions as set out in the section "Investment Objectives, Policies and Restrictions" in the Prospectus.

Method used to calculate the global exposure

The Sub-Fund uses the absolute Value-at-Risk (VaR) approach to measure its global exposure.

Leverage

The Sub-Fund may be leveraged through derivatives. The level of leverage under normal market circumstances is expected to amount to no more than 100% of the Net Asset Value of the Sub-Fund. Such level might be exceeded or might be subject to change in the future.

The strategies which are employed by the Sub-Fund are speculative and entail a number of risks. No assurance can be given that the Investment Objective of the Sub-Fund will be realized (See the section entitled "Risk Factors" of the Prospectus and the section "Specific Risk Factors" below).

SPECIFIC RISK FACTORS

THERE CAN BE NO GUARANTEE THAT THE INVESTMENT OBJECTIVE OF THE SUB-FUND SET OUT IN THIS OFFERING SUPPLEMENT WILL BE ACHIEVED. IT IS RECOMMENDED THAT PROSPECTIVE INVESTORS CONSULT THEIR OWN FINANCIAL ADVISORS BEFORE DECIDING TO INVEST IN THE SUB-FUND. THE SPECIFIC RISK FACTORS APPLICABLE TO THE SUB-FUND (SET OUT BELOW) SHOULD BE READ IN CONJUNCTION WITH THE RISK FACTORS SET OUT IN THE PROSPECTUS.

Use of financial derivative instruments (“FDIs”)

While the prudent use of FDIs can be beneficial, FDIs also involve risks which are different from, and in certain cases, greater than, the risk presented by more traditional investments.

Derivative contracts can be highly volatile, and the amount of initial margin is small relative to the size of the contract so that transactions may be leveraged in terms of market exposure. A relatively small market movement may have a potentially larger impact on derivatives than on standard bonds or equities. Leveraged derivative positions can therefore increase volatility in the performance of the Sub-Fund.

FDIs are highly specialised instruments that require investment techniques and risk analyses different from those associated with equity and debt securities. There can be no guarantee or assurance that the use of FDIs will meet or assist in meeting the investment objectives of the Sub-Fund. The prices of FDIs, including futures and options, are highly volatile. Payments made pursuant to swap agreements may also be highly volatile. Price movements of futures and options contracts and payments pursuant to swap agreements are influenced by, among other things, interest rates, changing supply and demand relationships, trade, fiscal, monetary and exchange control programs and policies of governments, and national and international political and economic events and policies.

Where the Sub-Fund enters into swap arrangements, the Sub-Fund will be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Sub-Fund could experience delays in liquidating the position and may incur significant losses. There is also a possibility that ongoing derivative transactions will be terminated unexpectedly as a result of events outside the control of the Company, for instance, bankruptcy, supervening illegality or a change in the tax or accounting laws relative to those transactions at the time the agreement was originated.

Credit Risk

The Sub-Fund may invest in debt securities which may expose the Sub-Fund to the risk that an issuer may default on the payment of principal and/or interest. In the event that any issuer of bonds, ETNs and/or other debt securities experiences financial or economic difficulties, this may affect the value of the relevant securities which may in turn affect the Net Asset Value per Investor Share.

Equity Investment Risk

Equity investments are subject to greater fluctuations in market value than other asset classes as a result of factors such as a company's business performance, investor perceptions, stock market trends and general economic conditions. Prospective investors should note that this could have an impact on the Sub-Fund's Net Asset Value.

Depository Receipts

The Sub-Fund may invest in American depository receipts and global depository receipts. Depository receipts evidence an ownership interest in a corresponding foreign security on deposit with a financial institution. Because the value of depository receipts will be dependent upon the market price of an underlying equity security, such depository receipts are subject to most of the risks associated with investing in equities. For further details see the risk factor headed 'Equity Investment Risk' above.

Investments in floating rate bonds

Securities with floating or variable interest rates can be less sensitive to interest rate changes than securities with fixed interest rates but may decline in value if their coupon rates do not reset as high, or as quickly, as comparable market interest rates. Although floating rate bonds are less sensitive to interest rate risk than fixed-rate securities, they are subject to credit risk and default risk, which could impair their value. This may, in turn, have an adverse effect on the net asset value of the Sub-Fund's Net Asset Value.

Investments in ETFs

Investing in exchange traded funds (ETFs) exposes the Sub-Fund to market risk and the return on the investment depends on the performance of the underlying assets. The value of ETFs will also rise and fall in response to the management skill and creditworthiness of the issuer. In particular, the value of these securities may decline when interest rates rise. Together with all other investors, the Sub-Fund as shareholder, will indirectly bear its proportionate share of expenses, including management fees, due to any ETF in which it invests.

Exchange Rate Fluctuations

Currency fluctuations between the currency of denomination of a class of Investor Shares of a Sub-Fund, the investor's currency of reference and the currency of the underlying investments of a Sub-Fund, may adversely affect the value of investments and the income derived therefrom.

Autocallable structured products

The Sub-Fund may invest in structured products which are automatically callable. Such products have an automatic call feature on pre-prescribed dates. Autocallable structured products are not structured to be liquid and are intended to be held to maturity. Selling

prior to maturity carries with it the risks inherent in factors such as volatility of the underlying assets and interest rate swings.

THE FOREGOING LIST OF RISK FACTORS IS NOT AND DOES NOT PURPORT TO BE A COMPLETE EXPLANATION OF THE RISKS INVOLVED IN AN INVESTMENT IN THE SUB-FUND. PROSPECTIVE INVESTORS SHOULD READ THE ENTIRE PROSPECTUS AND OFFERING SUPPLEMENT AND CONSULT THEIR OWN FINANCIAL ADVISORS BEFORE DECIDING TO INVEST IN THE SUB-FUND.

Deferral of Redemption

The Directors may in their exclusive discretion limit the total amount of redemptions effected on any Redemption Day to 10% of the outstanding Investor Shares in the Sub-Fund on that day (in each case before processing requests for the issue of the Investor Shares or requests for redemptions of such Investor Shares for such Redemption Day). In such circumstances, the Company or its authorised agent may scale down *pro rata* the number of Investor Shares to be redeemed in response to each request for redemption to the extent necessary to ensure that the foregoing limit is not exceeded and shall carry forward the balance for redemption as at the next Redemption Day and so on to each succeeding Redemption Day until each request has been complied with in full. In the case of the Accumulation Shares, no dividends will be paid unless otherwise determined by the Company, at its sole discretion.

Income will be allocated between the Accumulation Shares and Distribution Shares according to the respective shares in the property of the Sub-Fund represented by the Distribution Shares and Accumulation Shares in existence. When a dividend is paid to the holders of Distribution Shares the income allocated to the Accumulation Shares shall be reflected within the Net Asset Value thereof.

FEES

Management Fee

The Company will pay the Investment Manager an investment management fee of:

- (i) 0.75% per annum of the Net Asset Value in respect of the Class A11 EUR/GBP/USD Investor Shares, Class C11 EUR/GBP/USD Investor Shares and Class E11 EUR/GBP/USD Investor Shares.
- (ii) 1.25% per annum of the Net Asset Value in respect of the Class D11 EUR/GBP/USD Investor Shares.

This management fee will accrue on every Valuation Day and shall be payable monthly in arrears.

The Investment Manager will be reimbursed for all properly incurred and approved out-of-pocket expenses.

Custody Fee

Please refer to the section of the Prospectus headed "*Fees, Compensation and Expenses*" for details on the Custody Fee charged by the Custodian.

Administration Fee

The Administrator is entitled to receive a fee of: (i) 15 bips per annum if the Net Asset Value is below EUR50million (ii) 10 bips per annum if the Net Asset Value is above EUR50 million up to EUR100 million and (iii) 6 bips per annum if the Net Asset Value is above EUR100 million, payable pro rata quarterly in arrears on the last Business Day in each calendar quarter of each year. The fees are calculated by reference to the Net Asset Value on each Valuation Day. The Administrator is entitled to receive a minimum Administration Fee of: €20,000 per annum in the first year of launch of the Sub-Fund; and thereafter, €2,750 per month, payable quarterly in arrears on the last Business Day in each calendar quarter of each year.

The Administrator will be reimbursed for all properly incurred and approved out-of-pocket expenses.

Authorised Distributor Fees

Upon the subscription for Class E11 EUR/GBP/USD, (the "**ADF Share Classes**"), the Promoter may receive an authorised distribution fee of a maximum of 8.0% of the subscription amount from the assets of the Sub-Fund (the "**Authorised Distribution Fee**"), for onward distribution to the relevant Authorised Distributor introducing the Investor to the Sub-Fund. The % amount of the Authorised Distribution Fee is dictated by a signed agreement between the Authorised Distributor and the Investor but will not exceed 8% of the subscription amount. The signed agreement must be received by the Sub-Fund prior to the subscription being made to be eligible for the Authorised

Distribution Fee. The Authorised Distribution Fee is to be paid out of the assets of the Sub-Fund within 30 calendar days of subscription for the ADF Share Class/es.

The Authorised Distribution Fee is to be amortised over a maximum 96-month period (with 1% of the Authorised Distribution Fee being amortised per 12-month period) (the “**Redemption Penalty Period**”). Should the Investor redeem prior to the lapse of the Redemption Penalty Period, the Investor will incur a penalty equivalent to the unamortised balance of the Authorised Distribution Fee (the “**Redemption Penalty**”).

By way of example, a 5% Authorised Distribution Fee will mean a 60-month Redemption Penalty Period, and 3% would mean a 36 month Redemption Penalty Period. The Authorised Distribution Fee will always be calculated on the Investor’s original subscription value, and the current value of the Investor’s units held thereafter will not have any bearing on the calculation. The Redemption Penalty will decline to 0% after having been fully amortised over the Redemption Penalty Period.

The Investor then has the choice to move to a non-ADF share class free of charge or redeem the Investor Shares without incurring any redemption fee or penalty.

Promoter Fees

In respect of the Class C11 EUR/GBP/USD, the Promoter may be paid a Promoter’s fee, which at its absolute discretion can be paid to certain other promoters or Authorised Distributors engaged for their assistance in distributing the Class C11 Shares of the Sub-Fund. The Promoter’s fee shall not exceed 0.80% on the value of each subscription into Class C11 EUR/GBP/USD Fund and shall be amortised at 0.10% p.a. It shall be paid from the assets of the Sub-Fund.

The Promoter may pay all or part of the fees it receives as a commission, retrocession, rebate, or discount to financial intermediaries, Authorised Distributors or back to the Investor.

Subscription Fees

For Share Classes C11 EUR/GBP/USD & D11 EUR/GBP/USD, subject to the receipt of a signed agreement between the investor and financial intermediary, the Sub-Fund may impose a subscription fee on the issue of Shares of up to 5% of the Net Asset Value per Share subscribed by each Investor, to be paid out of the subscription monies at subscription and payable to the Promoter. The % amount of the Subscription Fee is to be agreed between the financial intermediary and the Investor but will not exceed 5% of the subscription amount.

For any investments, where no signed agreement between the Investor and the financial intermediary is received prior to the time of subscription, no subscription fee will be charged.

Other Expenses

The fees and expenses incurred in connection with the establishment of the Sub-Fund, the application for licensing of the Sub-Fund, the preparation and publication of the

Offering Supplement and all legal costs and out of pocket expenses in relation thereto shall be paid out of the assets of Sub-Fund.

The Sub-Fund shall also bear other expenses as specified in the section headed '*Fees and Expenses*' in the Prospectus. These include *inter alia* its pro-rata share of the Directors' and Company secretary Fees and other operating expenses relating to the Company generally as set out in the Prospectus.

INFORMATION FOR INVESTORS IN IRELAND

1. IRISH TAXATION

The following summary is only intended as a brief and general guide to the main aspects of current Irish tax law and practice of the Revenue Commissioners in Ireland applicable to the holding and disposal of Shares in the Fund where the Shareholder is regarded as holding a material interest in an offshore fund and is resident or ordinarily resident in Ireland or carrying on a trade in Ireland through a branch or agency in Ireland. Shareholders should note this summary reflects the law and practice in force at the date of this document and may change in the future.

It is not intended to provide specific advice and no action should be taken or omitted to be taken in reliance upon it. It is addressed to Shareholders who are the absolute beneficial owners of Shares held as investments and not to special classes of Shareholder such as financial institutions. In addition, it does not address the tax consequences in Ireland for Shareholders whose acquisition of Shares in the Fund would be regarded as a shareholding in a Personal Portfolio Investment Undertaking (PPIU). Accordingly, its applicability will depend upon the particular circumstances of individual Shareholders. The summary is not exhaustive and does not generally consider tax reliefs or exemptions. Any prospective Shareholder who is in any doubt about his/her Irish tax position in relation to the Fund should consult his/her Irish professional adviser.

Investors should consult their professional advisers on the possible tax or other consequences of buying, holding, transferring, switching or selling any of their Shares under the laws of their countries of citizenship, residence and domicile.

Taxation of the Company in Ireland

The Directors of the Company intend to conduct the affairs of the Company so that it does not become resident in Ireland for taxation purposes. Accordingly, provided the Company does not exercise a trade within Ireland or carry on a trade in Ireland through a branch or agency, the Company will not be subject to Irish tax on its income and gains other than on certain Irish source income and gains.

Taxation of Shareholders in Ireland

Shareholders in the Fund who are resident or ordinarily resident in Ireland or carrying on a trade in Ireland through a branch or agency in Ireland for taxation purposes will be liable to Irish tax in respect of any income and gains from Shares in the Company in accordance with the provisions of Chapter 4 Part 27 of the Taxes Consolidation Act, 1997 ("TCA"). Accordingly, such Shareholders will be obliged to comply with the requirements set out therein.

Filing Obligations

Such Shareholders should note that acquiring Shares in the Company will bring them within the self-assessment system of tax and, in particular, Part 41A of the TCA. Accordingly, Shareholders who are individuals will be obliged to comply with tax filing and payment requirements (including making a self-assessment tax return) on or before 31 October in the year, following the year of assessment in which the income or gains arise, paying preliminary tax on or before 31 October in the year of assessment in which the income or gains arise and paying the balance of any tax due on or before 31 October in the year following the year of assessment in which the income or gains arise.

Shareholders should also note that they are obliged to provide details of their acquisition of Shares in the Company in the prescribed manner in their tax return for the year of assessment in which they acquire Shares and that the rates outlined below assume Shareholders will comply with those requirements.

Tax on Distributions

Non-corporate Shareholders will be liable to income tax under Case III of Schedule D on distributions received from the Company (other than a disposal) at a rate of 41%, including where such distributions are reinvested in new Shares.

Corporate Shareholders will be liable to corporation tax under Case III of Schedule D, currently at a rate of 25%, in respect of all distributions received from the Fund (other than on a disposal) except where the corporate Shareholder holds the securities as part of its trading activities, in which case, the rate of corporation tax applicable to the distributions will be that applicable to trading income, which is currently 12½%.

Non-Corporate Shareholders who are resident but not domiciled in Ireland may be able to claim the remittance basis of taxation in respect of distributions received from the Company, in which case the liability to tax may only arise as and when income from the Company (received annually or more frequently) is received or deemed to be received in Ireland.

Tax on Disposals

Non-corporate Shareholders will be subject to income tax under Case IV of Schedule D on the gain arising on disposing of their Shares in the Company, calculated in accordance with the capital gains tax rules, but no indexation relief will be available. The gain will be taxed at the rate of 41%.

Shareholders who are individuals should note that on their death, the individual will be deemed to have disposed of his/her Shares in the Fund and reacquired them at the then market value immediately before his/her death and, accordingly, will be subject to income tax on the gain arising as outlined above.

Corporate Shareholders who dispose of their Shares in the Fund will be liable to tax on the gain arising calculated in accordance with the capital gains tax rules, but no indexation relief will be available. The gain will be subject to corporation tax under Case IV of Schedule D at the rate of 25%, except where the corporate Shareholder holds the Shares

as part of its trading activities, in which case, the rate of corporation tax applicable to the gain will be that applicable to trading income, which is currently 12½%.

Deemed Disposals

Shareholders should note that under Irish tax law, they will be deemed to dispose and reacquire their Shares in the Company at market value on the eighth anniversary of holding those Shares. A deemed disposal will arise at the end of each eight-year period in respect of which the Shareholder holds Shares in the Fund. On a deemed disposal the Shareholder will be liable to pay income tax or corporation tax (as the case may be) on the deemed gain under Case IV of Schedule D as outlined above. Such tax should be creditable against tax payable on an actual disposal of those Shares.

No Relief for Losses

Shareholders' attention is drawn to the fact that any loss arising on a disposal of Shares in the Company, will be treated as a nil loss for tax purposes and any gain arising on a disposal of such Shares may not be relieved by other losses available to the Shareholder from other sources.

Switching / Conversion of Shares

Shareholders should note that switching between Share Classes within a Fund should not be regarded as a disposal of shares by such Shareholder for tax purposes in Ireland, where the exchange is effected by way of a bargain made at arm's length by the Fund of the whole or part of the Shares of the Shareholder in one Share Class for another Share Class.

There are special rules relating to situations where additional consideration is paid in respect of the conversion of shares, or if a shareholder receives consideration other than the replacement shares in a fund and special rules may also apply when a fund operates equalisation arrangements (these rules are outside the scope of this note).

Foreign Currency Gains

In addition, Shareholders should note that where he/she/it makes a currency gain on a disposal of Shares in the Company, the Shareholder may be liable to capital gains tax in respect of that gain in the year of assessment in which the Shares are disposed of, where the Shares are denominated in a currency other than Euro.

Certain Anti-Tax Avoidance Rules

Shareholders should note that Chapter 1 of Part 33 of the TCA could apply to them. These provisions are designed to prevent the avoidance of income tax by individuals through the transfer of assets or income to persons outside Ireland and if applicable, could render such Shareholders liable to income tax or corporation tax in respect of undistributed profits of the Company.

In addition, certain Shareholders who are individuals who hold 5% or more of the Shares in the Fund may be subject to tax in respect of certain gains accruing to the Fund under the provisions of Section 590 of the TCA.

Encashment Tax

Shareholders in the Company should note that any distributions made by a paying agent in Ireland on behalf of the Company or which are presented to, collected by, received by or otherwise realised by a bank or other person acting on behalf of the Shareholder in Ireland will be subject to encashment tax at the standard rate of income tax which is currently 20%. Encashment tax is normally creditable against the Shareholder's final income tax liability.

Stamp Duty

No stamp duty will be payable in Ireland by the Fund on the conveyance or transfer of stock or marketable securities of a Fund or other body corporate not registered in Ireland, provided that the conveyance or transfer does not relate to any immovable property situated in Ireland or any right over or interest in such property, or to any stocks or marketable securities of a Fund (other than a Fund which is an investment undertaking within the meaning of Section 739B of the Taxes Consolidation Act, 1997 or a qualifying Fund within the meaning of Section 110 of the Taxes Consolidation Act, 1997) which is registered in Ireland.

Capital Acquisitions Tax

Shareholders should note that a gift or inheritance comprising of Shares in the Company will be within the charge to Irish capital acquisitions tax if either: (i) the disponer or the beneficiary in relation to the gift or inheritance is resident or ordinarily resident in Ireland; or (ii) the shares are regarded as property situate in Ireland.

However, Shareholders should note that:

- a. a non-Irish domiciled individual will not be regarded as being resident or ordinarily resident in Ireland at the date of the gift or inheritance unless that individual: (i) has been resident in Ireland for the five consecutive tax years preceding that date; and (ii) is either resident or ordinarily resident at that date, and
- b. on the basis that the Fund is incorporated or otherwise formed outside of Ireland and qualifies as an investment undertaking within the meaning of Section 75 of the Capital Acquisitions Tax Consolidation Act 2003 being a bona fide scheme for the purpose, or having the effect, solely or mainly, of providing facilities for the participation by the public or other investors in profits or income arising from the acquisition, holding, management or disposal of securities or any other property, the disposal of Shares by way of a gift or inheritance will not be within the charge to Irish capital acquisitions tax provided that:
 - I. the Shares are comprised in the gift or inheritance at the date of the gift or inheritance and at the valuation date;

- II. the beneficiary is neither domiciled nor ordinarily resident in Ireland at the date of the disposition; and
